PROTECT HISTORIC FOURTH WARD PARK

VOTE NO ON Z-26-52

Conditions on this site, including a height limit, already protect the park. Rezoning 687 & 707 Angier Ave NE would erase them.

We've been here before: 830+ neighbors signed against a poorly planned tower on this site in 2018. This plan is no better, and it's missing key information.

WHAT WE'D LOSE

1. **Robin Hood in reverse.** It takes 22 free public parking spaces from park visitors and hands them to millionaires. Everyone else pays deck fees to visit their own park.
2. **Sunlight.** This looming tower would blot out the sun from the park, leaving the playground, splash pad and the park's wildlife in shadows.
3. **An open park.** Balconies would loom over the playground, where kids and families should play freely without being watched.
4. **A safe walk.** Angier Ave is mostly foot traffic. This building would add heavy car traffic and narrow the street, making it unsafe to walk.
5. **Clean air & water.** No environmental plan has been proposed. Years of dust and runoff would flow into our watershed.
6. **An open process.** A neighborhood vote was held without notifying direct neighbors or the Park Conservancy.
7. **The height limit.** The park plan caps its edge at five stories. This could put 20 stories over the park. The Overline steps down; so should this.

SHOW UP IN PERSON **It's the strongest way to show your support.**

Zoning Review Board · City Hall Council Chambers, 55 Trinity Ave SW

Pack the chambers! There's room for everyone.

SCAN IT. WATCH IT. SHOW UP.

Watch the Zoning Review Board deny this rezoning once before. Rezoning it now would erase the park and neighborhood protections our community fought for.
